

Porridge for Parkinson's

What is Porridge for Parkinson's?

Porridge for Parkinson's is the world's simplest fundraiser. We started the idea in our home with our friends and relatives in November 2001, and will do it again on the last weekend of November this year. In Fall 2002/ Winter 2003, we know of a porridge party that was held in Calgary October 6, and of parties that will be held in Toronto (November 10), Vancouver (Nov. 24), and communities all around Newfoundland! Let us know if you are planning to hold a breakfast.

We've put together this website to show how you can hold an inexpensive, delicious, simple, and profitable event. The website will be a scrapbook of past parties, tips for putting on a party, and a running tally of funds raised for Parkinson's research.

Whether you serve 5, 10, 30 or 300, or you know two friends who might serve 10 each, we think this is an ideal cheap and fun way to raise money to find a cure.

Porridge for Parkinson's is not a pyramid scheme. It's more of a food chain ... or a bowl movement!
